Address to the 2016 Annual General Meeting
Michael Hammes, Chairman, James Hardie Industries plc

Hello and welcome to James Hardie Industries plc's 2016 Annual General Meeting (AGM), our seventh AGM to be held in Dublin. I am pleased to have you join us.

James Hardie again delivered solid results in fiscal year 2016. We anticipate another year of sustained growth in fiscal year 2017 anchored by strong operational and financial results, positioning the company to continue to deliver superior growth and returns for shareholders.

Fiscal year 2016 proved to be a robust year for the North American business with volumes, net sales, and margins all improving when compared to the previous year. In the first half of the year, management was challenged as our market share growth was below our internally targeted levels, however, following the implementation of new programs there were signs of improvement in the second half. The focus on lifting market demand for our products will remain a key area of focus over the next several quarters as we look to lift our market share growth back to our targeted levels.

In Australia, net sales growth outpaced the average growth of the domestic repair and remodel and single detached housing markets in the eastern states of Australia. Similarly, the New Zealand business delivered improved results supported by growth in residential markets in the North Island. The Philippines business also experienced growth and has lifted its contribution to Asia Pacific’s solid results during the year.

I would like to now update you on a recent management change. On 29 July 2016 we announced that Louis Gries, the Company’s CEO, has assumed direct responsibility for managing our North American business. At the same time we also announced that Ryan Sullivan, who was previously responsible for the North American business would be leaving the company.

Under the leadership of our CEO Louis Gries, James Hardie retains a strong and experienced senior management team who are focused on driving market share growth for the company’s fibre cement products and the sustained creation of long-term shareholder value.

I would now like to address the issue of capital management. Our strong operating performance and confidence in the operating environments enabled the Board to declare a first half dividend of US9.0 cents and a second half ordinary dividend of US29.0 cents. The ordinary dividend reflects our commitment to provide shareholder returns within the ordinary dividend payout ratio of 50 to 70% of net operating profit, excluding asbestos adjustments.

Additionally on 1 July 2016, James Hardie contributed US$91.1 million to the Asbestos Injuries Compensation Fund (AICF). This amount represents 35% of our free cash flow for fiscal year 2016 which we are obliged to contribute as part of our commitment under the Amended and Restated Final Funding Agreement.

Including this contribution, James Hardie have provided over A$1.1 billion towards asbestos disease related compensation and medical research and education since 2001.
Now turning our attention to board changes and renewal. As indicated in the 2013 AGM notice of meeting, Donald McGauchie AO, who will retire at the 2016 AGM, will not be standing for re-election. On behalf of the Board, I would like to acknowledge and thank Mr McGauchie for his considerable contribution since joining James Hardie as an independent non-executive director in August 2003 and, in particular, in his capacity as Deputy Chairman since April 2007.

David Harrison will be standing for re-election at today’s meeting. David was initially appointed as an independent non-executive director in May 2008 and is Chairman of the Remuneration Committee and a member of the Audit Committee. David has extensive financial experience at both executive and board levels.

Finally I will also be standing for re-election at today’s meeting.

In conclusion, James Hardie’s key focus for fiscal year 2017 is driving market demand growth for our fibre cement products towards our targeted levels and the continued creation of long-term shareholder value.
